Location: Srikakulam, Andhrapradesh, India

Professional Summary:

- Motivated and hardworking M.Tech (Electrical and Electronics Engineering– Power Systems) postgraduate seeking an entry-level opportunity to apply academic knowledge, technical skills, and internship experience in Electric Vehicles, Power Systems, and Software tools. Eager to contribute to organizational growth while enhancing personal expertise in both core and software domains.

Educational Qualification:

- **M.Tech** – Electrical and Electronics Engineering (Advanced Electrical Power Systems) Jawaharlal Nehru Technological University Kakinada | 2024–2026 | 80%
- **B.Tech** – Electrical and Electronics Engineering (EEE)
  Acharya Nagarjuna University, Guntur | 2018–2022 | 78.5%
- **Intermediate** – MPC
  AP Board of Intermediate | 2016–2018 | 96%
- **SSC (10th Class)**
  AP Secondary Education | 2016 | GPA: 9.3

Academic Projects:

1. Mitigation of Voltage Drop, Harmonic Distortion and Peak Load Issues in Renewable Energy Integrated EV Microgrid Using MATLAB/Simulink
- ✓ Developed a renewable energy integrated EV microgrid model in MATLAB/Simulink.
- ✓ Implemented V2G/G2V and smart charging strategies.
- ✓ Designed an LCL filter to reduce harmonics and improve power quality.
- ✓ Performed voltage profile, THD, and peak load analysis.

2. Design and Power Flow Analysis of Dual-Bus Electric Vehicle System with Auxiliary Load Integration Using MATLAB/Simulink
- ✓ Modeled a dual-bus EV system with battery, DC-DC converter, inverter, and auxiliary loads.
- ✓ Analyzed power flow, battery SOC, voltage, and current characteristics.
- ✓ Evaluated system performance under different operating conditions.

Work Experience & Internship:

- **Capgemini, Kolkata – Software Analyst** (Sept-2022 to Mar-2024)
  - ✓ Worked in corporate environment, gaining teamwork and client-handling experience.
  - ✓ Learned professional communication and project management discipline.
- **ERIDE E-Mobility Company, Hyderabad** (2025)-Hardware Internship
  - ✓ Worked on assembling/disassembling EVs, wiring, and testing BLDC & PMSM motors.
  - ✓ Learned integration of battery, controller, and power distribution systems.
  - ✓ Observed and worked on battery management systems and EV wiring.
  - ✓ Hands-on experience with EV components like motors, controllers, and inverters.

Technical Skills:

- **Electrical Core:** Power Systems, FACTS, HVDC, Protection Systems, Electric Vehicles, SCADA
- **Programming & Tools:** SAP ABAP (Reports, Smartforms, Enhancements, OOPsInterfaces),Python (Basics), MATLAB/Simulink,
- **Professional Skills**: Teamwork, Problem Solving, Communication, Time Management, Adaptability and Quick Learning
- **Basic Computer Skills**: MS Office (Word, Excel, PowerPoint), Internet Research, Documentation
- **Languages**: Telugu(Native), English(Fluent), Hindi(Moderate)

Research Interests:

- ✓ Renewable Energy Systems
- ✓ Electric Vehicle Technology
- ✓ Smart Grid
- ✓ Power Electronics
- ✓ Battery Energy Storage Systems
- ✓ Grid Integration of Renewable Energy

Achievements & Strengths:

- Strong academic background with consistent performance.
- Experience in both core EEE domain and software tools.
- Strong interpersonal and presentation skills.
- Can work in dynamic and challenging environments.
- Quick learner, adaptable, and motivated to explore new technologies.

Personal Details:

Date of Birth: 9th, May,2001
Gender: Male
Nationality: Indian
Languages Known: English, Telugu, Hindi

Declaration:

I hereby declare that the above information is true and correct to the best of my knowledge and belief.

Place: _____

Date: _____
